SRE demo project                                By: TehLing Chu

Task 0: install a ubuntu 16.04 server 64-bit

* Preinstall VMware Workstation Play 15.1
* Create virtual machine with .iso downloaded from http://releases.ubuntu.com/16.04/.
* Settings:
  Disk space: 20 GB
  Memory: 8 GB
  Core processor: 2
  Network adapter: NAT

NAT network port forward implementation mostly done via GUI network editor
    
```
